Contact person/email/phone: _____

Number of participants: Adults _____ Children _____

Number of trash bags and other items collected (describe most unusual items):

Cleanup time in hours: _____ Number of miles cleaned: _____

Number of signs needed (1 or 2 or none): _____

HOW TO PUT UP SIGN

It takes about 2-3 months for the VA Dept. Conservation and Recreation to send you the signs. They can send two so you can put them up at both ends of your stream segment, but most people just put up one. Contact Kelly Jimenez and I will call the PW solid waste department that puts up street signs, and they will meet with you to determine the exact location to put it up. You may also do it yourself, but it's easier to have them do it for us because there are county rules about the type of post, the distance from roads, Ms.Utility concerns, etc. The county will usually help within a week or so.
